September 30, 2010

Dear Customer:

International Products Corporation (IPC), Burlington, NJ has Pre-Registered with REACH (1907/2006). IPC plans to continue to offer all of its specialty cleaner and lubricant products during and after the implementation of REACH.

IPC processes phase-in substances only. Many of these substances fall under the Annex IV exemption clause of Article 2(7)(a) of REACH, because of their demonstrated minimum risk profiles. The remaining substances do not require full registration until June 2018 based on their low level of concern and current amounts exported to Europe (<100 tonnes annually).

IPC remains proactive, by registering any necessary substances, and by encouraging our critical upstream suppliers to pre-register their phase-in substances.

Please contact me if I can be of further assistance.

Best regards,

Kathy J. Wyrofsky
President
