**RE: P-80<sup>®</sup> LUBRICANTS - TWO YEAR SHELF LIFE**

Dear P-80<sup>®</sup> Lubricant Customer:

We are pleased to inform you that all sizes of P-80 lubricants, except P-80 RediLube, now have a two-year shelf life. This change is based on in-house stability testing.

The new shelf life applies to the following lubricants:

1. P-80 Rubber Lubricant Emulsion
2. P-80 THIX Rubber Lubricant Gel
3. P-80 Grip-It Quick Drying Temporary Rubber Assembly Lubricant
4. P-80 Emulsion IFC (for Incidental Food Contact Applications)
5. P-80 THIX IFC (for Incidental Food Contact Applications)

P-80 RediLube will continue to have a one year shelf life because it is a relatively new product. After long term stability tests are completed, P-80 RediLube's shelf life may be increased to two years as well.

Recommended storage and handling instructions are found on the Material Safety Data Sheets.

Please let us know if you need a Certificate of Analysis certifying a 24-month shelf life for your specific lot.

We appreciate your continued use of P-80<sup>®</sup> lubricants.

Regards,

Thomas P. McGuckin  
VP, Research, Quality & Safety
