SECTION 1: Identification

1.1 Product identifier

Trade name

P-80® Emulsion

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses

Industrial use

Do not use for private purposes (household)

1.3 Details of the supplier of the safety data sheet

International Products Corporation

201 Connecticut Drive

Burlington, NJ

08016

United States

Https://www.ipcol.com/

+1 6093868770

1.3.1 Additional information

Supplier (distributor)

</table>

e-mail (competent person)

tmcguckin@ipcol.com (Thomas P. McGuckin)

1.4 Emergency telephone number

1.4.1 Emergency information service

1-609-386-8770

This number is only available during the following office hours: Mon-Fri 08:00 AM - 04:30 PM, Eastern Time

SECTION 2: Hazard(s) identification

2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

This mixture does not meet the criteria for classification.

2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

not required

2.3 Other hazards

Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.
**SECTION 3: Composition/information on ingredients**

### 3.1 Substances
Not relevant (mixture)

### 3.2 Mixtures
Description of the mixture

Aquatic Chronic 1 / H410 | ![Pictogram] |

**SECTION 4: First-aid measures**

### 4.1 Description of first-aid measures

**General notes**
- Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

**Following inhalation**
- If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. Provide fresh air.

**Following skin contact**
- Wash with plenty of soap and water.

**Following ingestion**
- Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

### 4.2 Most important symptoms and effects, both acute and delayed
Symptoms and effects are not known to date.

### 4.3 Indication of any immediate medical attention and special treatment needed
none

**SECTION 5: Fire-fighting measures**

### 5.1 Extinguishing media

**Suitable extinguishing media**
- Water spray, BC-powder, Carbon dioxide (CO2)

**Unsuitable extinguishing media**
- Water jet
5.2 **Special hazards arising from the substance or mixture**
Hazardous combustion products
   Nitrogen oxides (NOx), Carbon monoxide (CO), Carbon dioxide (CO2)

5.3 **Advice for firefighters**
Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

## SECTION 6: Accidental release measures

6.1 **Personal precautions, protective equipment and emergency procedures**
   **For non-emergency personnel**
   Remove persons to safety.
   **For emergency responders**
   Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

6.2 **Environmental precautions**
Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.

6.3 **Methods and material for containment and cleaning up**
   **Advice on how to clean up a spill**
   Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: Sawdust, Kieselgur (diatomite), Sand, Universal binder.
   **Appropriate containment techniques**
   Use of adsorbent materials.

6.4 **Reference to other sections**

## SECTION 7: Handling and storage

7.1 **Precautions for safe handling**
   **Recommendations**
   - Measures to prevent fire as well as aerosol and dust generation
     Use local and general ventilation. Use only in well-ventilated areas.
   **Advice on general occupational hygiene**
     Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

7.2 **Conditions for safe storage, including any incompatibilities**
   - Specific designs for storage rooms or vessels
   - Storage temperature
     Recommended storage temperature: 2 – 30 °C
SECTION 8: Exposure controls/personal protection

8.1 Control parameters
This information is not available.

8.2 Exposure controls
Appropriate engineering controls
General ventilation.

Individual protection measures (personal protective equipment)
Eye/face protection
Wear eye/face protection.

Skin protection
- Hand protection
Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

- Other protection measures
Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

Respiratory protection
In case of inadequate ventilation wear respiratory protection.

Environmental exposure controls
Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

SECTION 9: Physical and chemical properties

Explosive properties | none
Oxidizing properties | none

**SECTION 10: Stability and reactivity**

10.1 **Reactivity**
Concerning incompatibility: see below “Conditions to avoid” and “Incompatible materials”.

10.2 **Chemical stability**
The material is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. Shelf-life: Two years from the date of manufacture.

10.3 **Possibility of hazardous reactions**
No known hazardous reactions.

10.4 **Conditions to avoid**
Do not mix with other chemicals.

10.5 **Incompatible materials**
Avoid extended contact with uncured paint, zinc, aluminum, cold rolled steel, or copper and its alloys. Avoid contact with polycarbonate, polymethyl methacrylate, and polyphenylene oxide as these plastics may craze over time. Refer to product’s compatibility sheets for further details.

10.6 **Hazardous decomposition products**
Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.
SECTION 11: Toxicological information

11.1 Information on toxicological effects

Basis of test data.

Classification procedure
   The classification is based on tested mixture.

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)
   This mixture does not meet the criteria for classification.

Acute toxicity
   Shall not be classified as acutely toxic.

Skin corrosion/irritation
   Shall not be classified as corrosive/irritant to skin.

Serious eye damage/eye irritation
   Shall not be classified as seriously damaging to the eye or eye irritant.

Respiratory or skin sensitization
   Shall not be classified as a respiratory or skin sensitizer.

Germ cell mutagenicity
   Shall not be classified as germ cell mutagenic.

Carcinogenicity
   Shall not be classified as carcinogenic.

Reproductive toxicity
   Shall not be classified as a reproductive toxicant.

Specific target organ toxicity - single exposure
   Shall not be classified as a specific target organ toxicant (single exposure).

Specific target organ toxicity - repeated exposure
   Shall not be classified as a specific target organ toxicant (repeated exposure).

Aspiration hazard
   Shall not be classified as presenting an aspiration hazard.

SECTION 12: Ecological information

12.1 Toxicity
   Shall not be classified as hazardous to the aquatic environment.

12.2 Persistence and degradability
   Data are not available.

12.3 Bioaccumulative potential
   Data are not available.

12.4 Mobility in soil
   Data are not available.
12.5 Results of PBT and vPvB assessment
Data are not available.

12.6 Other adverse effects
Endocrine disrupting potential
None of the ingredients are listed.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
Sewage disposal-relevant information
May be disposed according to local, state and federal regulations.

Waste treatment of containers/packages
Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

Remarks
Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

SECTION 14: Transport information

14.1 UN number
not subject to transport regulations

14.2 UN proper shipping name
not assigned

14.3 Transport hazard class(es)
not assigned

14.4 Packing group
not assigned

14.5 Environmental hazards
non-environmentally hazardous acc. to the dangerous goods regulations

14.6 Special precautions for user
There is no additional information.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question
National regulations (United States)
Toxic Substance Control Act (TSCA) all ingredients are listed

Superfund Amendment and Reauthorization Act (SARA TITLE III)
- The List of Extremely Hazardous Substances and Their Threshold Planning Quantities (EPCRA Section 302, 304)
  None of the ingredients are listed.
- Specific Toxic Chemical Listings (EPCRA Section 313)
  None of the ingredients are listed

Clean Air Act
None of the ingredients are listed.
Industry or sector specific available guidance(s)

NPCA-HMIS® III
