April 21, 2016

Dear Customer:

International Products Corporation (IPC), Burlington, NJ is scheduled to complete the full registration of all ingredients subject to the REACH regulation (1907/2006) by June 2018. IPC will continue to offer all of its specialty cleaner and lubricant products beyond this registration deadline.

IPC processes phase-in substances only. Many of these substances fall under the Annex IV exemption clause of Article 2(7)(a) of REACH because of their demonstrated minimum risk profiles. The remaining substances do not require full registration until June 2018 based on their low level of concern and current amounts exported to Europe (<100 tonnes annually).

IPC keeps abreast of the REACH and other EU regulations by subscribing to the ECHA website and responds to any industry changes accordingly.

Please contact me if I can be of further assistance.

Best regards,

Thomas McGuckin
VP, Quality & Research
